AMER. ZOOL., 30:925–926 (1990)

INDEX TO VOLUME 30

The index covers only the major papers, their authors, and the principal headings. It does not include the abstracts. For the latter there is a separate index to authors on pages 142A–150A. Minutes of business meetings, officers, and reports are entered only under American Society of Zoologists.

Abstracts, see note above.
  Index of authors, annual meeting, San Antonio, Texas, 142A–150A.
  Of annual meeting, San Antonio, Texas, 1A–150A.
Adaptation in aquatic animals: Deviations from the terrestrial paradigm, Concepts of, 107–122.
ALEXANDER, R. MCNEILL, Size, speed and buoyancy adaptations in aquatic animals, 189–196.
American Society of Zoologists,
Committees, iv–v.
  Divisional officers, iv.
  Financial statement, ix.
  Honorary members, vi.
  Minutes of annual business meeting, vii–viii.
  Officers for 1990, iv–vi.
  Presidents, iii.
  Sponsoring members, vi.
American Society of Zoologists, 1889–1989: A century of integrating the biological sciences, The, 353–396.
American Zoologist,
  Directions for authors, cover 1.
  Editorial board, cover 1.
  Statement of ownership, 150A.
  Subscriptions, cover 1.
ANDERSON, GARY, see HART, NATHAN H.
BELTZ, BARBARA S., New dimensions in neuroanatomy: Visualizing the morphology, physiology and chemistry of neurons, 513–529.
BENSON, KEITH AND BROTHER C. EDWARD QUINN, The American Society of Zoologists, 1889–1989: A century of integrating the biological sciences, 353–396.
BERN, HOWARD A., The "new" endocrinology: Its scope and its impact, 877–885.
BORGIA, GERALD AND KEN COLLIS, Parasites and bright male plumage in the satin bowerbird (*Ptilonorhynchus violaceus*), 279–285.
BOYCE, MARK S., The Red Queen visits sage grouse leks, 263–270.
BOOK REVIEWS, 223–224, 397–399, 921–923.
BRIGHT, THOMAS J., see REZAK, RICHARD *et al.*
CHALFIE, MARTIN, The differentiation of touch receptor neurons in *Caenorhabditis elegans*: A case study of genetic and molecular analysis, 531–543.
CHILDRESS, JAMES J. AND GEORGE N. SOMERO, Metabolic scaling: A new perspective based on scaling of glycolytic enzyme activities, 161–173.
CLAYTON, DALE H., Mate choice in experimentally parasitized rock doves: Lousy males lose, 251–262.
COLLIS, KEN, see BORGIA, GERALD.
CONCEPTS OF ADAPTATION IN AQUATIC ANIMALS: DEVIATIONS FROM THE TERRESTRIAL PARADIGM, 107–221.
  Adaptation to pressure, 123–135.
  Aquatic animal respiration, 137–146.
  Aquatic *versus* terrestrial feeding, 209–221.
  Crypsis in the pelagic environment, 175–188.
  Evolution of life histories in the sea, 197–207.
  Medium and its message, The, 111–121.
  Metabolic scaling: A glycolitic perspective, 161–173.
  Nutrient aqusition, 147–160.
  Rationale, 109.
  Size, speed and buoyancy, 189–196.
CONSTANTINE-PATON, MARTHA, The development of nerve cell connections, 545–548.
DARNELL, REZNEAT M., Mapping of the biological resources of the continental shelf, 15–21.
DARNELL, REZNEAT M. AND RICHARD E. DEFENBAUGH, Gulf of Mexico: Environmental overview and history of environmental research, 3–6.
DARNELL, REZNEAT M., see GIAMMONA, CHARLES P.
DEACON, TERRENCE W., Rethinking mammalian brain evolution, 629–705.
DEFENBAUGH, RICHARD E., Gulf of Mexico—A management perspective, 7–13.
DEFENBAUGH, RICHARD E., see DARNELL, REZNEAT M.
DENNY, MARK W., Terrestrial *versus* aquatic biology: The medium and its message, 111–121.
ECOLOGY OF THE GULF OF MEXICO, 1–105.
  Biological resource mapping, 15–21.
  Ecology of deep-water fauna, 45–64.
  Gulf of Mexico: Environmental overview, 3–6.
  Management perspective, 7–13.
  Northern Gulf of Mexico wetland changes, 89–105.
  Reef and banks, 23–35.
  South Texas continental shelf, 77–87.
  Southwest Florida shelf benthic studies, 65–75.
  Strategic petroleum reserve effects, 37–43.
GALLAWAY, BENNY J., see PEQUEGNAT, WILLIS E. *et al.*
GELPERIN, A., A taste for learning, 549–558.
GERHARDT, H. CARL, see HAUSFATER, GLENN *et al.*
GETTLESON, DAVID A., see PHILLIPS, NEAL W. *et al.*
GIAMMONA, CHARLES P. AND REZNEAT M. DARNELL, Environmental effects of strategic petroleum reserve program on Louisiana continental shelf communities, 37–43.
